# Pulverizer Machine

The Benchmark  
for Excellence

The Pulveriser from Janshakti Industries is a state-of-the-art grinding machine, engineered to simplify and enhance wet food preparation in commercial kitchens.

Designed for versatility, it efficiently processes gravies, chutneys, pastes, and a variety of wet ingredients, ensuring consistent quality and texture every time.

MODEL. NO	MOTOR	CAP./HR.	POWER CONSUME	A	B	C	D	E	F
				mm	mm	mm	Ømm	mm	MM
GPM-1.5	1.5 HP / 1Ph. / 2800rpm	30-35	1.3 UNIT/HR	300	400	500	185	90	155
GPM-3	3 HP / 3 Ph. / 2800rpm	100-125	2.23 UNIT/HR	360	460	680	225	100	200
GPM-5	5 HP / 5 Ph. / 2800rpm	200-250	3.75 UNIT/HR	360	460	680	225	100	200

## BENEFITS:

Speeds up food preparation, saving time and increasing efficiency.

Delivers consistent texture and quality, ensuring uniform results every time.

Maintains hygiene with the use of food-grade materials.

Reduces operational costs by minimizing manual effort and enhancing productivity.

## FEATURES:

- ✓ Entire machine is manufactured using SS 304 grade stainless steel for superior quality and durability.
- ✓ Features a heavy-duty stainless steel casting chamber for enhanced strength and reliability.
- ✓ Designed with a sturdy stainless steel body for long-lasting performance.
- ✓ Comes with interchangeable sieves/jalis of different sizes for various applications.
- ✓ All electrical components used are from reputed standard brands to ensure reliability.
- ✓ Powered by a high-performance motor with copper winding and heavy stamping for optimal efficiency.
- ✓ Includes an SS collection tray/safety tray for convenience.
- ✓ Supplied with a wooden pusher for safe and easy operation.
- ✓ Energy-efficient and requires minimal maintenance.
- ✓ Rodent-proof design ensures that rats and rodents cannot enter from the bottom.
- ✓ Equipped with a unique hopper design for smooth and efficient material movement.
